Some of our readers may be familiar with a beautiful illustrated work entitled "The Earth," recently noticed in our columns, of which Putnam & Sons imported a large edition for the helidays last year, and which has just been republished by the Harpers. The author is M. Elysee Reclus, a well-known writer in the Rerwe des Deux Mondes; he is an eminent geographer, a man of science and liberal culture, a brave and patri-otic citizen, and an henorable gentleman, M. Elysée otic citizen, and an henorable gentleman, M. Elysée Rechs, whose political relations have already been described by our Paris correspondent, like so many others of his countrymen, enrolled himself in the National Guard. He was a member of the balicon corps during the siece, and suffered incredible hardships. He was taken prisoner on the 6th of April. In a preclamation a few days before, published in the Cri da Penple, he carnestly advocated the settlement of existing difficulties by universal suffrace; this and the fact that he was a member of the Internationale secusive have been the only ground for his condemnation to transportation. Here is a case for the sympathy of men of science: M. Reclus is well-known in this country by his writings, and personally to many Americans, who highly esteem both his character and talents. He is one of the most distinguished members of the Paris Geographical Society, and it would be a gracious act for the New-York Geographical society to intercede in behalf of one whose patriclic devotion alone has brought him to this unfortunate destiny; or to offer him the hospitality which

| Second Board | Seco

SATURDAY, Dec. 16-P. M. After a week of more or less excitement, incident to the unsettled and active condition of money and the shaking of confidence caused by the fatiures of two or three of the smaller city banks, the close is characterized by a more settled two and growing restoration of the feeling existing previous to the break, though it will probably require several days to bring about the old confidence. Doubt and uncertainty in some quarters ushered in, with its millions and millions of dividend money to seek employment, doubt must of necessity yield to confidence, and easy money take the place of present stringency. Despite this activity, the prices of stocks kept up surprisingly, though the volume of business in any of the railways has dwindled into insignifi-cauce since the shifting of the last few days. This interchange of stocks, however, was not accompanied by any serious or wide variations in prices, and the fluctuations were confined within a range of 4244 per cent, though the average range was 2 to 3 per cent, as remarked in our usual Saturday table below. To day the changes have been of as little importance as the amount of business transacted. The strongest, as well as most active stocks were Western Union and Pacific Mail. Next in point of interest were Lake Shore, Ohios, Rock Island, Wabash, and New-York Central, the rest of the list being neglected. Of the investment stocks, Illinois Central was firm at 1834, other securities being dull. Dubuque shares were down to 74, while Alton Preferred was effered at 121. Cleveland, Columbus, Checianati and Indianapolis was weak, 86 being the best bid, under the impression that any will not pay the semi annual dividend on the full share capital as recently increased. The capital stock in 18te was \$1.526,000, which has since been in-creased \$2,514,000, making the total capital at present \$13,944,000. Coal shares were quiet and steady. The miscellaneous list was dull, and Express shares strong at 90 for Adams, 61 for United States, 59 for American, and 5s for Wells, Fargo & Co. The following Stable shows the highest and lowest prices of active stocks

Gold has been dull, with a declining tendency, and fter a few sales at 1091, the price went off to 109, the lowest point yet made on the downward scale. With the stronger hopes of the recovery of the heir apparent to he English throne, and the consequent buoyancy on the London Change, gold presents no indication of an im-mediate rise. The cash gold is heavy to carry, the rates paid being 7 per cent, gold, and 1-16 and 3-64 per cent until Monday. The Sub-Treasury paid out to-day, in redemption of called 1862s, \$550,000, a total thus far of \$20,130,000. In well-informed circles it is thought only about three-quarters of a million more will be disbursed. The day's business at the Gold Exchange Bank was as follows: Gold cleared, \$54,559,000; gold balances, \$2,419,432; currency balances, \$3,176,262 The following were the quotations:

The transactions to-day at the U. S. Sub-Treasury were | Gold receipts. | \$1,638,147 64 Currency balance. | \$16,333 |

Foreign Exchange, as usual on Saturday, has been dull, but rates were first on the basis of 109; 2109; for prime 60 days' hills, and 1602-91005 for short.

These was nothing unusual or of an irregular nature at the Clearing-House this morning, and all returns were promptly made. Owing to the active shifting of loans luring the week, and the efforts of the banks to place themselves in a anug condition for the exigencies of the occasion, money was unsettled, but the market was softer than yesterday. During the morning the demand was short, and some brokers paid as high as an eighth per cent to have stocks carried over until Monday, but as the day wore on there was a more cheerful feeling prevalent, and a better disposition shown by lenders to accomodate, so that at the close money was obtainable at 7 currency 1 7 gold.

Of course, commercial paper neglected.

The bank statement is a remarkable one, showing, as it loes, a net gain of strength to the banks of about 19,000,000. This may be somewhat detracted from by the act that the Ocean and two other unimportant up-town banks are not represented; but making allowance for these the result is amazing in view of the fact that there was no corresponding weakness shown by the street. But for the great inherent strength of the general market, the sudden withdrawal of so large an amount of loans must inevitably have produced a panic. As it was, stocks were nearly all higher. After the public announcement of the condition of the banks, money was freely loaned at 7 currency and a generally cheerful feeling prevailed. The specie item was increased less than was to be expected. The coin movement of the week covers the dissursement of a million on the regular weekly sale and \$505,855 interest on the Public Debt, the receipts of coin in Customs footing up \$1,990,159, the specie export amounting to \$731,645. As a result of the movement the oanks have made a gain of \$2,831,900 in their net reserve, and hold \$8,552,125 in surplus over legal reserve, as set forth in the analysis below.

The following table shows the condition of the New York City associated banks at the dates given:

BANKING AND FINANCIAL. THE NORTHERN PACIFIC RAILWAY - LANDS AND

its bonds are worth three per cent more than par in the market. It is not surprising in the light of such facts as these, that the Northern Pacific loan is meet. ing with such striking and rapid success. If the present Pacific Railroad is thus preftable, the North ern road must be greatly more so, for it runs on a much shorter line across the continent, traverses an infinitely richer region, and is building at a far lower cost; but the bonds are not only a first lien on the road itself and all its property, but are in addition a first mortgage upon valuable lands at the rate of 23,000 scree for every mile of road built, or up ward of 50,000,000 in the aggregate. These lands be long absolutely to the bondholders until every bond is redeemed, and as the proceeds of all sales must be devoted at once to buying and canceling the bong's, as long as the latter can be had at a price not exceeding 110, an advance above par must speedily be

brought about. At the present price of par and accrued interest in currency the Northern Pacific bonds are a very inviting and profitable investment. They bear 73-10 per cent interest in gold per annum, they are negotiable in any market, and are finally payable in Five-twenties and all marketable securities re-

ceived in exchange at current rates. Full particulars furnished by JAY COOKE & Co.,

New-York, Philadelphia, and Washington.

St. Joseph and Denver City Railroad Company's FIRST MORTGAGE SINKING FUND LAND GRANTS Boxos, BEARING EIGHT PER CENT (S p. c.) INTEREST, PAY-

ALLE IN GOLD. TREE OF TAX. AND IN DENOMINATIONS OF \$1,000, \$5.00, AND \$100,

can be obtained from the undersigned, or through the principal banks and bankers throughout the United States. The attractive features of these Securities are recognized in the fact, that, although they have been

but a short time on the market, they are nearly ail

absorbed, and but a small amount are now for sale. They combine a perfect security with a liberal rate of interest. This interest account is made light for, and easily borne by, the Company through the operation of the Sinking Fund created from sales of the Company's land, which in many cases draw in terest at the rate of ten (10) per cent per annum The security behind them is ample in every particular lar, as they constitute a first and only mortgage on trunk line of railroad which will soon connect the city of St. Joseph, Mo. (an important railway center), with the Union Pacific Railroad at Fors Kearney, materially shortening the distance between the Atlantic and Pacific coasts. In addition to this the bonds have a further security in the fact that there is included in the Mortgage the Company's magnificent Lands, amounting to 1,500,000 acres, known to be among the best in the United States. The Mortgage indenture prohibits the sale of these Lands at less than Four (4) Dollars per acre, and pay able to the Trustees under the Mortgage, for the clear and express purpose of retiring these Bonds. The amount thus realized exceeds the entire amount of Bonds which can be issued, and

The Bonds have thirty years to run, with interest at Eight Per Cent, free of tax, payable February and August in each year. Both principal and interest are payable in gold. . The principal in New-York. The interest in either New-York, London, or Frankfort-on-the-Main, at the

leaves the road, property and franchises free.

option of the holder, without notice and in the gold currency of the country in which they are presented. They are coupons or registered. Trustees-Farmers' Loan and Trust Company The present price of these bonds is 97; and accrued interest in currency, from August 15, 1871. But they are receivable at par and accrued interest in pay-

reserved to advance the present selling price without notice. Maps, circulars, documents, and full information furnished on application.

ment for lands sold by the Company. The right is

Though acting as agents for the sale of this loan, our firm buy and sell in their regular business the bonds of the St. Joseph and Denver City Railroad Company, those of the Eastern Division eight per cent (8s), recently placed by us at 97\frac{1}{2}, being now quoted at from 101\frac{1}{2} to 102\frac{1}{2} and accrued interest.

TANNER & Co., Bankers, No. 11 Wall-st.

The West Wisconsin Railway is completed to Hudson, and will have trains running to St. Paul by the commencement of the coming year. This route will be the trunk line for the Eastern and Western business of Northern Wisconsin and Minnesota, as well as for the through business to the East, the line being 100 miles shorter than by the present route. The Grain and Lumber business of the road is very considerable and steadily increasing, yielding sufficient return to pay interest. The Land Grant and property of every description belonging to the Company is worth more than double the amount of the mortgage, and is held as security for the Bonds, which are payable interest, and principal, in gold-bearing seven per cent per annum. Bonds are for sale at 90 and accrued interest in currency, by White, Morris & Co., No. 18 Wall-st., and Gwynne, Johnson & Day, No. 16 Wall-st., Agents for the Company.

FIGHT PER CENT FIRST MORTGAGE GOLD BONDS of the Mobile and Montgomery Railroad Co., indorsed by Alabama, \$13,000 a mile on a completed road. Particulars on application. For sale at 95 and accrued interest by Souther & Co.,
